PROFESSIONAL SUMMARY

Software Engineering undergraduate specializing in full-stack web and mobile application development with hands-on experience gained through academic, personal, and client projects. Experienced in developing RESTful APIs, backend systems, and database-driven applications. Seeking a software engineering internship to apply technical knowledge, contribute to innovative software solutions, and continuously develop as a software engineer.

EDUCATION

Bachelor of Science (Hons) in Information Technology Specialized in Software Engineering **2024- Present**
Sri Lanka Institute of Information Technology (SLIIT)

ACADEMIC PROJECTS

Career Selection & Education Guidance System for Sri Lankan School Leavers **May 2026**

Technologies: React (Vite), Node.js, Express.js, MongoDB (MERN Stack)

GitHub Repository: <https://github.com/KamshigaGanesan/A-Web-Based-Career-Selection-and-Education-Guidance-System>

- Built a MERN-based web application to support career selection and educational planning for Sri Lankan school leavers.
- Developed the Alternative Pathway Recommender Module with pathway filtering, comparison, and personalized recommendations.
- Integrated frontend and backend components using RESTful APIs and collaborated with team members using Git and GitHub.

Smart Campus Mobile Application for Northern University **May 2026**

Technologies: React Native (Expo), Node.js, Express.js, MongoDB

GitHub Repository: https://github.com/KamshigaGanesan/Y2S2SmartUniMobileApp_WMT

- Developed a Smart Campus mobile application to improve access to university services and student resources.
- Contributed to the Lost & Found Management Module for reporting, tracking, and managing lost and found items.
- Integrated React Native with RESTful APIs and MongoDB while collaborating with team members using Git and GitHub for version control and testing.

REAL-TIME PROJECTS

Full Stack Jewellery Website (Client Project) **July 2026**

Technologies: Next.js, React.js, Node.js, Express.js, MongoDB Atlas, Cloudinary, Tailwind CSS

GitHub Repository: https://github.com/KamshigaGanesan/Jewellery_Management

- Developed a full-stack jewellery website using Next.js, Express.js, and MongoDB Atlas.
- Implemented product management, gold rate updates, and Cloudinary-based image storage.
- Built responsive user interfaces and integrated frontend and backend services through RESTful APIs to improve application performance and user experience.

Human Resource Management System (Personal Project)

Jan 2026

Technologies: Java, Spring Boot, PostgreSQL, Spring Data JPA, Postman

GitHub Repository: <https://github.com/KamshigaGanesan/hrm-system-springboot>

- Developed a backend for HR operations using Spring Boot and PostgreSQL
- Built 20+ RESTful API endpoints using Spring Boot and validated them with Postman.
- Integrated PostgreSQL for efficient CRUD operations and managed source code using Git and GitHub.

CERTIFICATIONS

- | | |
|---|-------------|
| • Web Design for Beginners | 2026 |
| Department of Information Technology, Faculty of Information Technology, University of Moratuwa | |
| • Basics of Python | 2025 |
| UniAthena in partnership with Cambridge International Qualifications, UK | |
| • AI Poster Participation -ThinkAI Expo | 2025 |
| SLIIT Northern Uni, Presented an AI research poster | |

TECHNICAL SKILLS

Programming Languages: C, CSS, HTML, Java, JavaScript, Python

Frameworks & Libraries: Express.js, Next.js, Node.js, React.js, React Native, Spring Boot, Tailwind CSS

Databases: MySQL, MongoDB, PostgreSQL

Tools & Platforms: Cloudinary, Git, GitHub, IntelliJ IDEA, Postman, Ubuntu/Linux (Basic), VS Code

Concepts: API Integration, CRUD Operations, Database Design, Full Stack Development, MVC Architecture, Object-Oriented Programming (OOP), REST API Development, Responsive Web Design
